EXPERIENCE

ModeEffect, Phoenix AZ — *Software Engineer*

JULY 2021 - MARCH 2023

Consulted clients on a LAMP / LEMP basis. Worked with Wordpress, Laravel, Woocommerce, and front-end technologies across the board.

Allbound, LittleTaller & Thorium, Phoenix AZ — *Contractor*

AUGUST 2018 - FEBRUARY 2021

Worked with clients on a contract basis. Consulted clients and built out an array of solutions with Wordpress, Laravel, and front-end technologies.

Self-Employed, Roseville CA — *Freelancer*

AUGUST 2018 - PRESENT

Consulted a small group of repeating clients over the course of several years. Built solutions with Laravel, Wordpress and front-end tech as well.

EDUCATION

Grand Canyon University, Phoenix AZ — *Sociology*

JUNE 2016 - APRIL 2019 (Did not graduate)

Started in sociology at Grand Canyon University. Became wrapped up in the tech industry. Will return for a bachelors in computer science.

Valley Christian Academy, Roseville — *High School Diploma*

JUNE 2011 - APRIL 2015

PROJECTS

React vs Vue — *A comparison of two awesome technologies*

I built out two identical Laravel apps, CSS libraries, & HTML templates. The only difference between the two projects was the JS libraries on the client.

State-Bind — *An analogy for React one-way-binding data*

A Laravel React app for a hackathon. Three users, one chat, and messages flowing in a circle to show the challenge of one-way-binding data flow.

PROFESSIONAL PRINCIPLES

Self-Starter
Bias for Action
Client Oriented
Project Owner
Optimize in Iterations
Always Learning

TECHNOLOGIES IN PRACTICE

Laravel Developer

Proficient with PHP, MySQL, Redis, CRON, Vue, React, Angular, & MVC framework.

Frontend Developer

Confident with Javascript, jQuery, VueJS, ReactJS & AngularJS.

Wordpress Developer

Practiced with PHP, MySQL, Javascript & jQuery.

Woocommerce Developer

Experienced with gateways, subscriptions, templates, & various woo-related plugins.

LAMP / LEMP Developer

Developed and consulted on matters concerning security, server setup, and app design.
